CLAWSON WILL EXAMINE MINE OF WYATT EARP

Former Copper Queen Superintendent in Phoenix On Way To Parker—Earp Changed From Frontier Character.

PHOENIX, Feb. 21.—To examine mining property, for Wyatt Earp, whom he knew in Tombstone during the stormy days of that camp, S. S. Clawson, far many years superintendent of the Copper Queen mines at Bisbee, arrived in Phoenix this morning, and will leave tomorrow for Parker, near where Earp's mines are located.

Earp's home is now in Kingman, but he has been in Los Angeles recently as one of the star witnesses in the trial of Estelle Corwell for the murder of a man who wronged her.

Los Angeles is Clawson's headquarters, where he has opened an office since he left Bisbee, and examines mining property. Speaking of Earp this morning Clawson said:

"When I knew Earp twenty-five years ago he was a typical frontier character, ready with the gun, but he used it just as quick in the defense of a friend as he did himself."

"Earp is now greatly changed, and is a gentleman in a pleasure to meet. We frequently get together and talk of the early days in Tombstone, when that camp got a reputation that Earp helped as much as anyone else to make world-wide."

In addition to the Earp property, Clawson will examine three others, all of which are within a radius of twenty miles of Parker. He stopped over here today to attend the Mystic Shrine's convocation.

TESTER & HICKS, Brokers.

Over Rinehart's Drug Store—Rooms 3 and 4 Antler Building.

Bisbee, Ariz., Feb. 21, 1908. The copper market opened with a strong tone and generally higher, reflecting the recovery in the metal in London and a stronger New York market. Calumet & Arizona, North Butte, Copper Queen, Copper Range and Amalgamated were the most active. Most of the business in our market continues to be in odd lots and there was no pressure to sell.

There was a fair demand for several of the cubs, with Shattuck, Denn, and Superior & Pittsburg the favorites. Greene Cananea shows an advance of \$1.00 for the day. The balance of the list showed very little activity, tomorrow being a holiday there will be no market.

Closing Quotations:

	Bid	Asked
Calumet & Arizona	99.00	100.00
North Butte	45.00	45.25
Butte Coalition	17.87	18.12
Old Dominion	33.75	34.12
Denn	2.50	2.75
Shattuck	15.00	15.50

J. G. PRITCHARD.

Bonanza Circle and Warren District Stocks a Specialty.

Agent for the Liverpool & London and Globe Insurance Companies.

Feb. 21st, 1908.

The market today has shown a continual increase from opening to close. While there has not been very much buying the prices have held well with no set backs and we expect this good feeling to continue, which will mean that next week there will be considerable business and that prices will get back to their old places before the slump of the past two weeks. Amalgamated is again at \$49.00; C. & A. at \$100.00; Superior & Pittsburg at \$12.75. Lake Copper has also advanced three-eighths, being quoted and 12 1/2 to 58 cents.

The work on the Gold Nuggett property has been progressing, but the management is handicapped for want of funds to carry on the work and they have decided to put a limited amount of stock on the market at 20 cents per share, payable monthly in four payments. Call and investigate. Also examine samples of ore.

Closing Quotations:

APACHE GROUP IS MAKING PROGRESS

Mr. R. N. Leatherwood, one of the original owners of the Apache group of claims located in the Old Hat mining district, which is in the country on the north side of the Santa Catalina mountains, was in the city yesterday. Mr. Leatherwood says that the group is now under option and that a force of 25 men are steadily at work on the property.

When he left there three feet of snow covered the ground, which is one of the heaviest falls in that section for many years.

The group is being developed under the direction of Superintendent Cassett and the option on the claims is held by the Western Development company. It has been worked in a desultory sort of fashion for the past quarter of a century, but the intention is now to push the work consistently and permanently. It is very rich in copper and bears some silver and gold ore.

At present a tunnel is being driven through the property and it has already reached a depth of 400 feet, while a shaft has been sunk to the 150-foot level.

Mr. Leatherwood is a former sheriff of Pima county and during the world's fair at St. Louis in 1904 was in charge of the exhibit from this territory.

Discussing political conditions in Arizona now, Mr. Leatherwood remarked that he is opposed to the idea of sending a delegation to Chicago under instructions to support anybody for president. Like all the pioneers, he was opposed very determinedly to joint statehood, and he has a very warm feeling in his heart for Senator Foraker of Ohio, who was the savior of the interests of the territory at that time. He thinks that the Republicans of the territory will emphatically rebuke the effort to adopt any other course.

At the present time the regular ore train between Douglas and Bisbee is believed to be the heaviest train run over any railroad in the county. Every day this takes from the mines at Bisbee to the smelters steel ore cars having a capacity of fifty tons each, besides ten cars known as Gondolas, loaded with the sample ores for the Copper Queen smelter. One of the steel cars used on the Southwestern road will weigh forty thousand pounds and will carry 100,000 pounds of ore. Sixty of these cars, loaded, will weigh 8,400,000 pounds or 4,200 tons. This enormous train is pulled by one of the large Decapod engines which has no trouble in delivering the enormous load to Douglas. In the morning the empty cars are brought to Douglas and from there they are taken by the Bisbee yard crew and distributed to the various mining shafts in the district. When they are loaded the yard crew deliver them back to Douglas, where the monster ore train is made up ready for the road crew. Besides the regular daily ore train the local freight between Benson and Douglas carries from twenty to thirty loaded ore cars loaded with Douglas ore every day. The number of loads of ore now going to Douglas daily has averaged about eighty since the first of February.

Some idea may be had of the quantity of ore which may be taken from the Bisbee mines in the future when it is known that the El Paso & Southwestern railway is receiving new ore cars from the factory now which were ordered more than a year ago. When all the cars arrive the road will have more than three hundred.

SHEARER SELLS RANCH.

Jake Shearer, who for twenty years was engaged in the cattle business in the Sulphur Springs valley, was in the city today. He sold his ranch and cattle recently to the Sulphur Springs Cattle company and is now looking for some desirable investments in this city.

Mr. Shearer came to Arizona in 1880 and for a long time engaged in freighting, which, in the early days, was a very profitable business in this country. He was one of the first men to haul lumber from the surrounding mountains into Tombstone when that city was at the height of its prosperity. Later he hauled coke to Clifton and Globe and copper from these mining camps to the railroad.

This morning he stated that it was his desire to purchase some business property in this city and if he does this he will buy some residence lots and build a home here.

It is to be hoped that Mr. Shearer will be able to find something here to his liking and that he will become identified with Douglas—Douglas International-American.

BRYAN IN SPRINGFIELD.

SPRINGFIELD, Ill., Feb. 22.—William J. Bryan visited Springfield today to confer with his supporters among the democrats of Illinois. Although ostensibly a rally of the Bryan clubs of the state and held without any special political significance, it is believed the presence of so many Bryan followers will be taken advantage of for an important conference.

Mr. Bryan is reported to be not altogether satisfied with the way things have been allowed to drift along in Illinois. The hostility of National Committee-man Roger C. Sullivan toward Bryan and Bryanism is well known, but recently other matters have come up to rattle the surface. The suggestion of Governor Johnson of Minnesota for the democratic presidential nomination has been received in Illinois with a cordiality not to the liking of the Bryan people. The Swedish element is large and influential in this state and though the majority of the Swedish-American voters are republicans it is believed they would rally strongly to the support of Governor Johnson if his nomination appeared to be a possibility. The connection between Mr. Bryan's visit to Illinois and the Johnson boom is strengthened, so far as supposition goes, by the fact that the Nebraska leader goes from Illinois to Kansas, where he is to confer with Kansas democratic leaders tomorrow.

Kansas, like Illinois, is the home of large colonies of Swedish-Americans.

PRICE BOOST STRENGTHENS THE COPPERS

Stocks Plainly Show the Effect Of Slight Increase In Price Of Red Metal As Recorded In London.

(By Frank J. Graf.) The advance in copper metal was clearly shown in today's copper market, and it reminds one of the old time market. Coppers showed exceptionally good strength today and short interests were driven to cover. All active stocks showed good advance, with stocks not coming out as freely as they have been. North Butte, Old Dominion, Copper Range and Utah Consolidated were among the most active ones. Amalgamated closed strong at 49 and Greene Cananea reached 8. Local cubs were also affected with little stock being offered. Superior is showing good demand at 12 3/4 to 13 and bids of 15 failed to locate any Shattuck. Denn is firm at 3 3/4, but the balance of the cubs are about the same. The New York market also showed strength, but not as marked as the coppers. The advance of today was rapid, in fact, almost too rapid, and whether it will last or not is hard to tell. Tomorrow being Washington's birthday all markets will be closed.

It was through the determined energy and perseverance of J. C. Adams that the territorial fair was provided for and located near Phoenix. Mr. Adams is proprietor of the Adams hotel, one of the finest in the territory. He has served as mayor and was also postmaster for several years. He is now again elected mayor, but on account of pressing and growing private business he resigned the position. He has been a member of the territorial fair commission since the fair was created and much of the success of this enterprise is attributable to his activity for its welfare. Mr. Adams owns a string of fine horses which have been on the eastern racing circuit for several years. He brings them back to Phoenix in the fall for the territorial fair and winters them on his ranch near that city.

"Your city is a beautiful one and I was surprised to find it so large and so complete a city in the future when I first found the Gadsden to be the finest hotel in the territory; I find that you have a completed Y. M. C. A. building which would be a credit to any city in the west; I see a splendid street railway system, handsome churches and schools and a beautiful Country club building. Of course you are destined to continue to grow as the rich mineral country surrounding you is further developed." This was the comment of Mr. Adams on Douglas.

Strong for Uninstructed Delegation. Speaking of politics, Mr. Adams said: "During the past week I have been in Tucson, Bisbee and Judge from expressions which I have heard by republicans in those places it looks like both Pima and Cochise counties will send delegations to the territorial convention who will favor a delegation from Arizona. I am free and untrammelled by any instructions for any candidate and certainly I favor such action for many reasons. Arizona will have many things to ask of the next republican national convention, the great credit of which is to the people is in a national convention where a nomination for president is to be made. It is there that policies for future government are agreed upon and for one I think a delegation bound to no party or body should be more effective in asking for concessions for Arizona than one tied to the presidential boom of any particular candidate."

"I find many republicans who are admirers of this, and are anxious to instructing for them and aside from those who are holding commissions from the present administration I find very few who are insisting for instructions for the Arizona delegation to Chicago."

"The activity of the federal officials in this territory for an instructed delegation lays these officials open to at least the suspicion that they are working for a continuation of their official terms. If the people want to impress their desire for home rule upon the national republican party they can do so effectively by refusing to send federal officeholders to Chicago."

"Another thing, when Senator Foraker was making his great fight against the joint statehood bill, which was being backed by the power of the Roosevelt administration, every political party, every commercial organization, every professional body and every board of supervisors were meeting and passing resolutions thanking Mr. Foraker for his friendship to Arizona; petitions were from the school children of the territory expressing thanks to Arizona's true friend. When the republican territorial convention met a man who desired to approve the efforts of the administration could not get a hearing on the floor so determined was the feeling against the evil which Senator Foraker was fighting away from Arizona. Whether Mr. Foraker has any chance to win the nomination or no I do not believe the territory of Arizona can afford to instruct for any other candidate. We are not sufficiently guaranteed yet that the joint statehood fight will not

be resumed by our enemies to desert our friends in the senate."

"I feel confident that the delegation sent from Arizona by the republicans will go uninstructed as between the opposing candidate and I hope that no federal official will be found in the delegation."

Mr. Adams will return to his home in Phoenix tomorrow.

ADAMS OF PHOENIX ADMIRES DOUGLAS

Hon. J. C. Adams of Phoenix arrived in Douglas this morning, coming down from Bisbee where he had been visiting friends for two or three days. Mr. Adams is perhaps the best known citizen in Phoenix and has done as much for that city and the Salt River valley, as a whole, as any other man there.

It was through the determined energy and perseverance of J. C. Adams that the territorial fair was provided for and located near Phoenix. Mr. Adams is proprietor of the Adams hotel, one of the finest in the territory. He has served as mayor and was also postmaster for several years. He is now again elected mayor, but on account of pressing and growing private business he resigned the position. He has been a member of the territorial fair commission since the fair was created and much of the success of this enterprise is attributable to his activity for its welfare. Mr. Adams owns a string of fine horses which have been on the eastern racing circuit for several years. He brings them back to Phoenix in the fall for the territorial fair and winters them on his ranch near that city.

"Your city is a beautiful one and I was surprised to find it so large and so complete a city in the future when I first found the Gadsden to be the finest hotel in the territory; I find that you have a completed Y. M. C. A. building which would be a credit to any city in the west; I see a splendid street railway system, handsome churches and schools and a beautiful Country club building. Of course you are destined to continue to grow as the rich mineral country surrounding you is further developed." This was the comment of Mr. Adams on Douglas.

Strong for Uninstructed Delegation.
